

# RusTech

Your International Language Connection

## WHAT WE DO

RusTech Language Services, Inc. specializes in technical, legal, and commercial language support for all industries and subject areas. We are renowned for our comprehensive management of high-level projects in subject areas including nuclear non-proliferation, biotechnology, and Homeland Security.

With the ability to provide communication support for more than 100 languages and dialects worldwide, we are committed to delivering high quality and consistent translation and interpreting services to ensure you achieve your international business goals.

## WHAT SETS US APART

Unlike many translation companies, every RusTech translator and editor is a native speaker of the targeted language, and all draft translations are edited by a second linguist. Our language experts are able to offer 24-hour on-call support for clients traveling internationally, as well as social courtesy training on best practices for your international business exchanges.

## PROJECT MANAGEMENT

RusTech specializes in managing large and complex translation projects, distinguished by our ability to produce consistent terminology and style across multiple documents. As our client, you will have your own dedicated project manager who works specifically to meet your individual language support needs.

## QUALITY GUARANTEED

RusTech stands behind our commitment to unparalleled customer service and dedication to every project. As a woman-owned small business with more than 15 years of experience, we guarantee you will receive the very best language support at a competitive price.
