Prepared several hundred case reviews for insurance companies, law firms and government agencies.

Participated in depositions and appeared in trial over one hundred times, including both State and Federal Courts.

Have participated in symposia both with trial lawyers and insurance company claims representatives.

Admitted as Expert in Blood Spatter Evidence for 9th District Federal Court through Daubert Hearing, 1999

NOTABLE FEDERAL COURT MEDICAL/LEGAL CASE PARTICIPATION_____

US VS HERNANDEZ: Expert for Defense. Result: Defendant acquitted of Manslaughter.

US VS IRON CLOUD: Expert for Defense. Result: Defendant acquitted of Manslaughter.

US VS P. DUPRIS: Expert for Defense. Result: Defendant acquitted of two Class A felonies.

US VS VACCINE ENCEPHALOPATHY: Expert for Plaintiff in three unrelated cases of Small Pox Encephalopathy. Result: All three were Plaintiff's verdicts, resulting in substantial awards to victims

RESEARCH EXPERIENCE_____

1990 - 1991 Developed a process of Selective Spinal Cord Cooling, which is used in extensive aortic aneurysm surgery and is currently being used in acute spinal cord injury. Journal of Vascular Surgery, 1994, "Spinal Cord Protection During Thoracoabdominal Aneurysm Resection". I developed the technique and with Dr. Paul A. Wojewski conducted the initial animal experiments.

1991 - 1992 Developed Hyperbaric Oxygen clinic facility for use in wound-healing and spinal cord degenerative diseases.

1984 - 1999 Participated with numerous pharmaceutical companies in clinical studies for pharmaceuticals to be used in treatment of Multiple Sclerosis, Alzheimer's Disease and Migraine Headache.

CURRENT PROFESSIONAL AFFILIATIONS_____

American Academy of Neurology

South Dakota State Medical Association

Black Hills District Medical Society

Clinical Professor of Neurology, University of South Dakota School of Medicine (retired)
