

The EXPERTS are coming TO YOU!

Introducing our on-line newsletter
featuring articles by experts
discussing current litigation. Topics at:
www.techmedexperts.com

Who we are:

I'm Rhonda Grallnick. I'm a registered nurse who founded Medical Advisors in 1983, with my sister, Elyce. We've handled more than 10,000 cases since we started. I personally review every case and hand-select the right expert to give their opinion and testify in court.

Elyce is a trained paralegal who manages all details of the legal case, coordinating and scheduling conferences, meetings and depositions. She keeps everything and everyone on track, which frees our clients from time-consuming administrative work.

We're experienced enough to know exactly what we're doing, and small enough so that our clients always work directly with a principal of the firm.

(Our sister, Linda, recently joined the company, so it's truly a family business.)

About our clients:

We work with plaintiff and defense attorneys, corporations, municipalities and government agencies all over the country. We've also done cases in Puerto Rico and the Virgin Islands. More than 8,000 lawyers have used our services, and some have been with us since we began 27 years ago. We go beyond medical malpractice and hospital negligence and provide experts in worker's compensation, product liability and personal injury cases as well. Unsolicited testimonials on our website speak to our competence and success.

What we do:

Think of us as the *match.com** of litigation. We find the medical or

technical expert to match with a client who needs insight and expertise on a case. The expert reviews the file to decide if there are grounds for a lawsuit and testifies before and during trial. We've accumulated an extensive and always growing database of 4,000 experts all over the country. Most of them are academics or board-certified practitioners of long standing with experience in court. We recruit from major medical schools such as Massachusetts General, Harvard, Yale, the University of Pennsylvania, UCLA, the Cleveland Clinic and others.

Why pick us:

We know time is critical to our clients. We respond within 24 hours to a query. We meet tight deadlines and are always reachable by phone. Our clients get to pick an expert from a number of qualified candidates we provide. I review every case – and I never give up if I think it has merit.

Recently, a client presented the case of a 40-year old woman who died while in a drug rehabilitation center. A few experts said there was no cause

for legal action. I believed otherwise, and searched until I found an expert who agreed with my assessment of the case. The lawsuit is now pending.

We're dedicated, we're diligent and we deliver!
