**NOTICE TO ATTORNEYS  
MEDICAL MALPRACTICE CHARGES**

MEDICAL MALPRACTICE DEPOSITIONS PLAINTIVE OR DEFENSE

Minimum charge **\$2000** includes appearance and up to (1) one hour of trial/testimony.

\$1000 per hour with each portion over one hour at the hourly rate of \$1000 per hour.

The deposit is to be paid at the time of scheduling or brought to the deposition. Over payment is refunded. Depositions stop at the end of the hour/s scheduled and need to be continued at a later date. They will need to be rescheduled through my office and will need to be prepaid. This should be received within five business days or the deposition will be removed from the calendar.

MEDICAL MALPRACTICE DEPOSITIONS PLAINTIVE OR DEFENSE

\$350 per hour for preparation minimum to be prepaid at the time of service is four hours or \$1400.

All overpayments are refunded and if additional hours are needed to prepare they will be charged. I prefer to give refunds than to charge at a later date. Funds are due at the time of scheduling any defense or plaintive depositions. There will be \$1400 due for record review at the time of scheduling.

No call/No show, late cancellation which means less than 72 business hours prior to deposition a full charge will be retained. If the deposition is cancelled over 72 hours the deposition payment will be refunded, however, the hours put into preparation will be deducted from the amount sent in at the time of scheduling and the excess will be refunded.

**NOTE: ALL ANTICIPATED FEES MUST BE PAID BEFORE WORK BEGINS**  
unless prior written arrangements are on record and agreeable to all parties involved.

The fees for deposition and/or payment for personal appearance at either workmen's comp hearings or civil litigation trials are payable at the time they are scheduled and will not be refunded unless cancellation is received 72 business hours prior to the scheduled time. This is for deposition, evidentiary video deposition and live testimony at the time of the trial. If cancellation is made less than 72 hours prior to the scheduled appearance, partial refund could be given depending upon the amount of time I have already used in preparation.

In those cases I would charge the amount of time I have spent in preparation and also paper review at \$350 per hour. If a complete refund is not justified, the amount of time I have already spent in preparation will be documented and subtracted from the deposit.

## TRAVEL TIME

\$300 Per Hour (Within Reason) Includes any travel. It does not include waiting time for depositions or in court testimony.

I feel these charges are reasonable and I take many factors into consideration when billing for travel time, such as working days or days I may have to return from a vacation. I don't attempt to pad my bill with long hours of travel. My travel time is valuable as it is non-productive and I feel some compensation is appropriate

## CHRONOLOGICAL MEDICAL RECORD SUMMARY

Chronological summary will include all venues and treaters, if one is not supplied with the medical records.

**PMI MD LLC**  
**Peter M. Ihle, M.D.**

**Bio**

I was born and raised in Eau Claire, Wisconsin. After I finished undergraduate studies in 1963, Medical School in 1967 and General Surgery at the Marshfield Clinic in 1969. I completed my orthopedic residency from 1969-1972 at the University of Wisconsin, Madison. I practiced medicine for two years as a Lt. Commander in the United States Navy from 1972-1974.

After an honorable discharge from the Military in 1974 I returned to Eau Claire, Wisconsin and practiced as a Board Certified Orthopedist with my father and my brother. Our group was called Ihle Orthopedic Clinic and grew from three doctors to seven orthopedic surgeons. I practiced general orthopedics with an interest in shoulder and knee reconstruction and spine.

I have had a fair amount of experience with ligament repairs, total knee replacements, total hip replacements, micro laminectomies and discectomies as well as spinal fusions. I did posterior fusions using pedicle screws and rods. Our practice did hire a Fellowship trained spine surgeon as a significant sub-specialty for our clinic.

Because I had had multiple rotator cuff surgeries, three on my right and two on my left, in the 1990's I did have to retire from active practice. This was due to pain and muscle spasms and subsequent poor function of my shoulders.

I began a consulting business and over the past 11 years have done independent medical examinations for personal injury cases, workman's compensation cases and medical malpractice cases. I have performed approximately 800 independent medical record exams and medical record reviews.

I have managed to balance my business between both plaintiff and defense and can not be labeled as working exclusively for either. At the present time my practice is approximately 60 percent plaintiff and 40 percent defense cases. This percentage has held for the last five years.
