Professional Profile

Board-certified Family Medicine physician and Diplomate of the American Board of Wound Medicine & Surgery with substantial experience managing acute and chronic wounds across outpatient wound centers, skilled nursing facilities, long-term care, and Veterans' healthcare. Skilled in complex wound evaluation, limb preservation, pressure injury prevention, and earlier recognition of wound deterioration, guided by evidence-based practice. Collaborates closely with interdisciplinary teams and contributes to clinician and patient education, quality improvement, and wound care publication and editorial work. Brings a strong Family Medicine foundation to comprehensive, whole-patient wound management.
